REASON FOR TODAY'S CALL:

the tap in the apartment suite's bathroom (we are new rental tenants to this unit) has two issues: 1) the biggest issue is that the pipe for the cold water is leaking under the sink just past the ubend - we have shut off the pipe and the leaking has stopped but will start again if the value is opened. 2) the taps and faucet above the sink is very loose and swivels - ? needs to be tightened? then the kitchen sink faucet sprays water everywhere when turned on - is there something that can be done to lessen this?

DESCRIPTION OF WORK PERFORMED:

MAY28: -I replaced the aerator in the kitchen faucet and tested. -I tightened the packing nuts on the shut off valves under the lavatory faucet which stopped the leaking under the sink. -While onsite it was mentioned the tub spout was not fully diverting water to the shower head. JUN13: I replaced the tub spout with a new Delta pull-down type diverter spout and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Aerator (May28)	\$119.00	\$119.00
1		Replace Standard Tub Spout Diverter	\$159.00	\$159.00
			SUBTOTAL:	\$278.00
			GST (5%):	\$13.90
			TOTAL:	\$291.90
