REASON FOR TODAY'S CALL:
I have a jammed garbage disposal.

DESCRIPTION OF WORK PERFORMED:
-I was able to unjam the garburator and tested by filling and draining the sink while running the garburator. Nothing was pulled out of the garburator, whatever caused it to seize up was pushed through and washed away.

TECHNICIAN RECOMMENDATIONS:
The inside of the garburator grinding chamber is starting to deteriorate. While there is no sign of cracking or leaking from the outside of the garburator, it will likely have to be replaced in the next couple years.
