**REASON FOR TODAY'S CALL:**

I'm writing to let you know we have a minor (not time-critical) plumbing issue in the unit. In the master bath, the valve that switches between overhead shower and hand-held shower no longer works - its overhead shower only now. If you want to schedule a plumber, please let me know. Helga would prefer if I'm at home when that happens, and I'm travelling a bit for work these days. I am at home starting this Wednesday (13 June) for the remainder of the week, and also will be home all of next week (through 22 June).

**DESCRIPTION OF WORK PERFORMED:**

The shower diverter was breaking down internally and little pieces of rubber from within the diverter were clogging up the shower spray hose. I replaced the diverter and flushed out the debris. Tested and in good working order.
