REASON FOR TODAY'S CALL:
Clogged lavatory sink drain.

DESCRIPTION OF WORK PERFORMED:

I used the PowerSpin drain snake to clear the powder room lavatory sink drain blockage. During testing I noticed water leaking under the sink from where the mechanical drain assembly attaches to the sink. I was able to tighten the nut that secures the drain assembly which seems to have stopped the leaking but I've suggested keeping a towel under the drain and checking it periodically to ensure no other leaks have sprung up.
