REASON FOR TODAY'S CALL:

I wanted to let you know that the shower water pressure in the guest bathroom as completely deteriorated to a point where it's just about non useable. Can you please get this looked at? Looks like theres a small leak in the shower nozzle, but may be something else going on too as the pressure has been deteriorating for a few weeks now.

DESCRIPTION OF WORK PERFORMED:

The metal sheathing protecting the shower hose was breaking off and the shower head was clogged up internally and could not be repaired. I installed a new spray hose and handshower, tested and in good working order.
