PHONE 604.417.9003		EMAIL colin@colindoig.com	

REASON FOR TODAY'S CALL:
 Lavatory sink stopper stuck in the closed position. Possible leak under sink.

DESCRIPTION OF WORK PERFORMED:
 I made an adjustment to the height of the stopper, as well as the connection between the stopper and the lever arm. The leak was coming from where the lever arm connects to the drain body. After making the adjustments I tested by filling and draining the sink multiple times. The drain stopper is in good working order and no other leaks were detected.
