REASON FOR TODAY'S CALL:  
Garburator not working a leaking under sink. \*BADGER5

DESCRIPTION OF WORK PERFORMED:  
The garburator grinding chamber was completely seized up and could not be repaired but there didn't seem to be any leaking from it. I replaced the garburator with a new Badger5 and tested by filling and draining the sink multiple times while running the garburator. The leaking under the sink was reported to be closer to the back of the cabinet. I found there to be a gap between the undermount sink and the countertop and I could see water staining on the underside of the sink and the countertop at this point. I sealed this area using silicone. And tested everything by filling and draining both sides of the sink while running the garburator.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Supply & Install 1/2HP Badger5 Garburator	\$329.00	\$329.00
SUBTOTAL:				\$329.00
GST (5%):				\$16.45
