REASON FOR TODAY'S CALL:  
 Two toilets and one sink draining slowly and making funny noise. Not an emergency but needs looking at.

DESCRIPTION OF WORK PERFORMED:  
 -The guest bathroom toilet bowl wasn't properly filling after each flush because the hose for the flushvalve tube popped out. I put this hose back in place and tested. -  
 The toilet in the en-suite bathroom, as well as the lavatory and shower drains, were gurgling when water was drained through the bathroom sink or the kitchen sink above. I used the PowerSpin drain snake to clean the drain line through the kitchen sink and tested by filling the sinks and draining multiple times. The issue is much better and there is no gurgling from the bathroom drains when only the kitchen sink is drained. It will only gurgle if the kitchen and bathroom sinks are drained at the same time.

| QTY.      | CODE | DESCRIPTION                                | UNIT PRICE | PRICE    |
|-----------|------|--|------------|----------|
| 1         |      | Clean drain using PowerSpin / Kitchen sink | \$159.00   | \$159.00 |
| SUBTOTAL: |      |  |            | \$159.00 |
| GST (5%): |      |  |            | \$7.95   |
| TOTAL:    |      |  |            | \$166.95 |
