REASON FOR TODAY'S CALL:
 garbage disposal clogged, when turn it on, it is humming but the blades are not turning. I think the dishwasher can't drain because of the clogged garbage disposal problem. *call when 5 mins away.

DESCRIPTION OF WORK PERFORMED:
 -I was able to unjam the garburator and tested. -The dishwasher wasn't draining because the point at which it connected to the ABD drainage was blocked with food waste. I cleared this food waste, reconnected the drain hose, and ran the dishwasher through 2 drain cycles to clear the standing water inside. *When I unplugged the dishwasher to try and reset it I noticed one of the electrical prongs was showing signs of overheating.
