REASON FOR TODAY'S CALL:

-Garburator jammed. -Handles loose on kitchen, lavatory, and shower handles. -Tub drain stopper broken. -Kitchen faucet spray head won't switch between spray functions.

DESCRIPTION OF WORK PERFORMED:

-I replaced the broken drain stopper with a new lift and turn style drain trim. -I tightened the kitchen, lavatory, and shower handles. -I was able to unjam the garburator by removing rust from within the grinding chamber. it is important the garburator is run weekly to mitigate the chances of rust building up again. -A new kitchen faucet spray head can be ordered from Paini and easily installed by the homeowner.
