REASON FOR TODAY'S CALL:  
Guest bathroom lav faucet leaking.

DESCRIPTION OF WORK PERFORMED:  
I removed the hot and cold cartridges within the faucet. Unfortunately the cartridges did not match and of the cartridges I had with me and I did not see any branding anywhere on the cartridges or faucet. Once the cartridges were reinstalled the leaking actually stopped but I do not expect this to be a permanent solution. I suggest replacement of the faucet.

TECHNICIAN RECOMMENDATIONS:  
The countertop in the guest bathroom is not secured to the cabinet. I believe a couple of metal L-brackets would do the trick.
