REASON FOR TODAY'S CALL:

Two problems: -Most problematic is a slow leak in my garburator and a counter mounted switch that seems to not be connected. -I also have a very slow to empty bathroom sink - has been like that for months so that's not as urgent as the garburator. Email or text work for contacting.

DESCRIPTION OF WORK PERFORMED:

-The garburator was cracked and leaking. I replaced the garburator with new and tested. -The bathroom sink requires a drain snake and I will be sure to bring one on my next visit to remove the water filter/instant hot water tank under the kitchen sink.
