REASON FOR TODAY'S CALL:
 Garburator is not functioning. I think removal is the best option. If there are any other common items worth checking during a tenancy change let's do that too. Call it a plumbing "check-up". The building is 13 years old and I don't recall any major plumbing fixes or assessments during that time.

DESCRIPTION OF WORK PERFORMED:
 I removed the garburator, installed a basket strainer in it's place, and repiped the ABS drainage. Tested by filling and draining both sides of the sink multiple times.

TECHNICIAN RECOMMENDATIONS:
 I inspected the other fixtures and found: -The water supply line to the dishwasher to be kinked. -The tub spout diverter to not be fully diverting water to the shower head. -The laundry hoses appear to be the original to the building and should be replaced.
