REASON FOR TODAY'S CALL:

-This issue is back - the water is coming out of both the shower head and tap - and the handle is loose and fallen out(Diverter spool last replaced July23/2018). -In addition, the drain plug leaver isn't working properly and can only open the drain halfway causing a pool of water in the tub. -It also sounds as though something is caught in the garburator.

DESCRIPTION OF WORK PERFORMED:

-The tub/shower diverter handle fell off. I reinstalled the handle and tested. Water is now diverting properly. -The tub drain stopper would not open fully. I installed a new lift and turn style tub drain and tested. -I removed flower stems from the garburator and tested by filling and draining the sink while running the garburator.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace Tub Drain Trim - Standard	\$159.00	\$159.00
