REASON FOR TODAY'S CALL:  
Garburator jammed.

DESCRIPTION OF WORK PERFORMED:

I was able to unjam the garburator and tested by filling and draining the sink while running the garburator. During testing I noticed the kitchen sink was draining very slow. I used the PowerSpin drain snake to clean the drain and tested by filling and draining both sides of the sink. I also ran the drain snake through the lavatory drain and tested by filling and draining the sink multiple time.
