REASON FOR TODAY'S CALL:
 My kitchen sink isn't draining properly and my shower lever to change the water temperature has become very stiff. The sink is the higher priority and is hopefully a quick job.

DESCRIPTION OF WORK PERFORMED:
 -I cleaned the kitchen sink drain using the PowerSpin drain snake and tested by filling and draining the sink multiple times. -The water pressure in the kitchen faucet is really high. I believe a previous plumber removed the flow limiter/backflow preventer from within the faucet spray hose adaptor. I have reached out to Grohe and asked for repair options. -The guest bathroom shower valve cartridge(HC44) is stiff and should be replaced.
