REASON FOR TODAY'S CALL:  
Shower draining slowly.

DESCRIPTION OF WORK PERFORMED:  
I used the PowerSpin drain snake to clean the shower drain and was able to remove a small amount of hair but roughly 3' down the drain the snake ran into resistance and was unable to move past it. It feels as though there is a hard object stuck a few feet down the drain.

TECHNICIAN RECOMMENDATIONS:  
If there is a hard object stuck in the drain the ceiling below may have to be opened up to retrieve it. I didn't have one with me at the time but before opening the ceiling below it be a good idea to bring in a powerful wet vac in, fill the drain with water, and try to use suction to remove the obstacle/s.
