**REASON FOR TODAY'S CALL:**

I have a leak under my kitchen sink that does not appear to be coming from the garburator. it must be coming from a pipe. Hoping you have some time this coming week to check it out.

**DESCRIPTION OF WORK PERFORMED:**

I tested the sink and found there to be leaking from the left sink basket strainer. The tailpiece nut was loose. I tightened this nut and tested by filling and draining both sides of the sink multiple times. No other leaks were detected.
