REASON FOR TODAY'S CALL:

I have a problem with my toilet. Initially the toilet would not flush last night so I poured water into it last night and this am to get rid of the waste. When I press down on the cartridge that makes it flush there is no impact. Then, just now I noticed water on the floor around the base of the toilet. I have turned the water off.

DESCRIPTION OF WORK PERFORMED:

The recycled rain water system was not functioning so the toilet had no water supplying it. I lifted the toilet and found no leaking underneath. While the toilet was lifted I took the opportunity to replace the fillvalve and supply line. Tested and in good working order.
