REASON FOR TODAY'S CALL:
Water leaking onto countertop. #1420

DESCRIPTION OF WORK PERFORMED:
This is the second time I've made the trip over to inspect for a leak from the faucet and again could not get it to leak. Because the faucet has now leaked twice and it seems to happen periodically, there must be something wrong with the faucet internally that I cannot see. I removed the faucet and installed a new one. I'll contact the manufacturer and have them reimburse me for the one I supplied.
