REASON FOR TODAY'S CALL:

-odor emitting from under bathroom sink. Stephen believes it may be coming from the drain. Their seems to be no odor emanating from above the sink, just when you open the cabinet.

DESCRIPTION OF WORK PERFORMED:

Odour emitting from under cabinet. It seems to be stronger as you get closer to the openings within the cabinet. Could be an issue with the main drainage line within the wall. Might also be some type of mold inside the wall cavity. It is hard to pin point the cause without opening wall.
