PHONE 604.716.5203		EMAIL marciemezz@gmail.com	

REASON FOR TODAY'S CALL:
 -inspect source of gas leak. leak believed to be between the gas shut off and the gas range.

DESCRIPTION OF WORK PERFORMED:
 -it seemed that the source of the leak was coming from the regulator vent plug. i tightened this plug and tested all connections. No leak present on any of the fittings from the gas shut off valve to the range. -as i was packing up i noticed a faint smell of gas again. i re-checked all connections which were tight and no leaks present. the gas smell is coming from the range vent. since all connections from the shut off to the range are sound it seems as though there is a small leak within the range itself.

TECHNICIAN RECOMMENDATIONS:
 -an appliance repairman would need to diagnose further whether the appliance can be repaired or should be replaced.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$99.00	\$99.00
			SUBTOTAL:	\$99.00
