REASON FOR TODAY'S CALL:
-clogged toilet

DESCRIPTION OF WORK PERFORMED:

-used toilet auger to clear blockage. the blockage was caused by a keycard that was lodged in the toilet. this key card must have been lodged in the toilet in such a way that on some flushes it would be fine but on others it would shift slightly creating a blockage. on previous calls to clear this toilet we used the toilet auger which cleared the blockage but could not remove this card. we also lifted the toilet on one service call flipped it upside down and used our toilet auger from both ends to try and remove any sort of obstacle which we could not see but assumed could be there.
