REASON FOR TODAY'S CALL:
 -toilet and shower backing up.

DESCRIPTION OF WORK PERFORMED:

April26-made a visit at the end of the day and tried clearing the blockage with our toilet auger, this did not work. we rescheduled a time to come back with another drain snake. April27-used our k45 drain cleaning machine through the tub overflow to clear blockage. the blockage was quite far down the drainline and effecting the tub, shower, lavatory, and shower. whatever was in the drain took a while to break through but we did not manage to pull anything out of the drain. whatever it was was broken up and flushed away. we tested the drain by filling the tub and sink and draining down, all in good working order.
