REASON FOR TODAY'S CALL:  
 -leak under kitchen

DESCRIPTION OF WORK PERFORMED:  
 -the connection between the kitchen faucet spray head and spray hose was loose. The water leaking out of this connection would travel up the neck of the faucet and leak out below the countertop to the cabinet below. I tightened this connection and tested. -the dishwasher drain hose was sagging and pinched off. I raised the drain hose and used a plastic clip to support it upright. Drained content of dishwasher.

TECHNICIAN RECOMMENDATIONS:  
 -the garburator has cracks in the housing and leaks when water running through. The garburator must be replaced or removed all together.

| QTY. | CODE | DESCRIPTION | UNIT PRICE | PRICE   |
