REASON FOR TODAY'S CALL:

-drains backing up. -you were at this address and cleared these drains on Feb21st.

DESCRIPTION OF WORK PERFORMED:

MAY21-(Kristian 1.5hrs)Snaked kitchen drain and tub drain. the tub, kitchen sink, and lavatory sink all drain fine on their own but water backs up when the washing machine is in it's drain cycle. will return and gain access to the laundry drain. MAY28-(Darren & Kristian 2hrs each)Used K45 drain snake on the laundry drain as well as the kitchen sink drain. we ended up grabbing onto something through the laundry drain but it would come loose form the drain snake before we could pull it all the way out. we then gained access under the kitchen sink by removing the abs drainage and gradually pulled apart what appeared to be lint and hair. to test we filled the kitchen sink, lavatory sink and drained these while the laundry machine was in it's drain cycle. everything draining well.
