**REASON FOR TODAY'S CALL:**

-washing machine not getting water. appliance has been checked out and the appliance guy said that is fine, just not receiving water. -hose-bib has very low water pressure

**DESCRIPTION OF WORK PERFORMED:**

-removed dryer from the top of washing machine to gain access to the backside of the washing machine. Removed old hoses and tested the water supply which was fine. Removed screens on hot and cold water inlets to the washing machine, which were full of debris, cleaned the screens and re-installed. -we then installed new laundry hoses(braided stainless type)

**TECHNICIAN RECOMMENDATIONS:**

-we could not locate a shut off valve for the hose-bib. I imagine this valve may have been covered up during a renovation that was recently done(by another contractor) -in order to work on this hose bib we would need to locate this shut off valve.

| QTY. | CODE | DESCRIPTION                            | UNIT PRICE | PRICE    |
|------|------|--|------------|----------|
| 1    |      | Replace Laundry Hoses - Limited Access | \$199.00   | \$199.00 |
