REASON FOR TODAY'S CALL:

One toilet won't stop running; the other is missing a flusher (or that thing you pull down to flush the toilet); and one faucet is pretty weak (little water comes out, and very slowly).

DESCRIPTION OF WORK PERFORMED:

-replaced fill-valve, flapper and supply line in ensuite bathroom. -replaced flapper in guest bathroom.(free of charge) -replaced toilet tank lever in guest bathroom. -replaced airator on guest bathroom lav faucet.(free of charge)

TECHNICIAN RECOMMENDATIONS:

we searched for a replacement toilet lever handle that would match the current one but Crane went out of business a few years ago. we contacted American Standard who actually bought out Crane's assets but they did not have parts either.
