12:00PM-Robin called us and let us know she noticed water on the floor while running a load of laundry. we rushed over to find what could have caused the leaking. Inspected and clear and no signs of water coming from the supply lines. while testing i noticed the water in the washing machine doesn't stop filling and overflows. i believe the float mechanism i gave Cynthia the contact info for a local Appliance repairman: John Lucas/Lucas Appliance 604.736.3323
