REASON FOR TODAY'S CALL:

"I noticed water dripping from the light fixture in our dining room. It was not a lot, and it stopped after a few minutes. There was no flooding or anything unusual in either of the bathrooms upstairs. We were using the master bathroom shower earlier but that is upstairs down the hall. We need somebody to find where it's coming from."

DESCRIPTION OF WORK PERFORMED:

Found tub drain to be loose and puddy was cracking. I believe this was the source of the leak. Replaced tub drain and silicone sealed it.
