REASON FOR TODAY'S CALL:

The bathtub in the Main Bathroom does not have any water supply to it. The separate shower and twin sinks in the bathroom do have water supply

DESCRIPTION OF WORK PERFORMED:

-the tub spout used of this tub had a diverter on it that is meant to divert the water to a shower head or spray hose. There is no shower head or spray hose on this tub so when the water was diverted it locked the diverter closed and no water could pass through. I removed the diverter washer and reassembled. Tested and in good working order.
