REASON FOR TODAY'S CALL:  
 -toilet running. -shower valve handle not turning water on.

DESCRIPTION OF WORK PERFORMED:  
 -Toilet fillvalve was leaking from the top, and the float was catching on the flapper causing it to continually run. I replaced the fillvalve and supply. The flapper was in good condition. Tested toilet; in good working order. -behind the shower trim is an extension that connects the cartridge to the handle, this extension piece had come loose and d'état he'd for the handle. I disassembled the trim, re-attached the extension piece and re-installed the trim. Tested and I good working order.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace toilet FillValve - standard	\$149.00	\$149.00
