REASON FOR TODAY'S CALL:

"Our garbage disposal doesn't drain. Them machine spins and drains the water but it comes back. This seems same problems as usual."

DESCRIPTION OF WORK PERFORMED:

APRIL21-- I tried for 1hr to Clear the kitchen sink blockage using the 25' PowerSpin drain snake but it did not work. The blockage seems to be further down than the PowerSpin can reach. APRIL22-- Cut into the drainage under the kitchen sink and installed an easily accessible clean-out to allow for a larger drain snake access. Used the K400 drain cleaning machine to clear blockage. Also noticed a leak coming from the existing ABS drainage ptrap, I replaced the ptrap and slip joint. Tested by filling the sink and draining.
