REASON FOR TODAY'S CALL:
 -kitchen faucet leaking. -shower handheld broken off. -issue with toilet seat.

DESCRIPTION OF WORK PERFORMED:
 -The kitchen faucet was leaking, i could not figure out what brand it was so purchasing parts would have been very difficult. We ended up replacing the faucet with a new Delta Palo. -The threads holding the handheld shower head in place had snapped off, i purchased and replaced the spray head. -The toilet is a type of Kohler that requires a special metal insert to hold the seat bolts in place. One of the inserts had broken off and required replacement. i purchased the anchor removal kit from Kohler, removed and replaced the anchor.
