REASON FOR TODAY'S CALL:

-issues with toilet in en-suite. -lav in guest bathroom not draining well.

DESCRIPTION OF WORK PERFORMED:

TOILET:--the nut holding the lever handle in place had come loose. This was causing the handle to obstruct the flapper on some flushes which would cause the water to run constantly. Also the hose connected to the flush valve overflow was disconnected. I reconnected the lever handle and overflow hose and tested.
 LAVATORY SINK(GUEST)--I removed hair from the top of the drain(drain snake was not required).
