REASON FOR TODAY'S CALL:

"Our garburator is completely shot. I am not able to read the label on it completely, the model starts with "Whirl" and it's blue writing, if that helps at all. The motor was making weird noises and one day it just died completely. We've tried to reset it as was recommended, but that didn't work either."

DESCRIPTION OF WORK PERFORMED:

Replaced garburator with new Waste King 1001. The existing dishwasher drain coupling was deteriorated so I replaced this as well. Tested by filling both sides of the sink and draining.
