REASON FOR TODAY'S CALL:
 My garbage disposal does not start and is causing the sink to be clogged.

DESCRIPTION OF WORK PERFORMED:
 The garburator was seized up due to rust buildup. I scraped out a thick layer of rust and free'd up the grinding chamber. Tested by filling the sink and draining.

TECHNICIAN RECOMMENDATIONS:
 I informed Taeyun that the garburator should be run 2-3 times per week with water to prevent rust from firming again.
