**REASON FOR TODAY'S CALL:**

"We have 2 needs: Priority need is to replace the flush mechanism inside 2 toilet tanks. Jiggling the handle no longer makes refill stop. Second need is to either unstuck kitchen faucet--it only points left--or replace faucet which we'll need to buy."

**DESCRIPTION OF WORK PERFORMED:**

--Replaced the fill-valves, flappers, and supply lines I both toilets. --Installed customer supplied kitchen faucet. During testing it noticed that a 3/8" "tee" fitting on the cold supply that supplies water to the water filter was leaking. I will have to purchase and replace this fitting on another visit. --Purchased and replaced the 3/8" tee on the cold supply line under kitchen sink.

| QTY. | CODE | DESCRIPTION                                  | UNIT PRICE | PRICE    |
|------|------|--|------------|----------|
