REASON FOR TODAY'S CALL:
garburator not working, also leaking.

DESCRIPTION OF WORK PERFORMED:
The garburator had multiple cracks in the housing that were allowing water to seep out into the cabinet. I replaced the garburator with new and tested by filling and draining both sides of the sink while running the garburator.

TECHNICIAN RECOMMENDATIONS:
The tenant wanted the old garburator left onsite for the landlord, I left it in the box the new garburator came in.
