REASON FOR TODAY'S CALL:

Garbage disposal is not working. Sounds like the motor isn't working. Drains very slowly. As a result, when the dishwasher drains, it backs up into the sink in which the garbage disposal is. A plunger is required in order to ensure the sink drains when the dishwasher is running. I've attached a photo of the garbage disposal below.

DESCRIPTION OF WORK PERFORMED:

Unjammed the garburator. I removed a small piece of plastic from the grinding chamber and tested by filling and draining the sink twice while running the garburator.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$99.00	\$99.00
