REASON FOR TODAY'S CALL:

-garburator not working. (garburator was installed 2 months ago)

DESCRIPTION OF WORK PERFORMED:

There was a bottle cap and a piece of string lodged in the grinding chamber, I removed these items and tested by filling and draining the sink while running the garburator. I also drained the contents of the dishwasher which had backed up.

TECHNICIAN RECOMMENDATIONS:

Whoever installed this new garburator did not install the new mounting bracket that came with it, instead the original was used. The mounting bracket is fine it is just discolored from age.
