REASON FOR TODAY'S CALL:

-kitchen tap is leaking -ensuite toilet clogs on occasion. *entrance off of 15th 1949

DESCRIPTION OF WORK PERFORMED:

---The kitchen faucet was leaking from the handle as well as the aerator, I tried to repair the faucet but could not. I replaced the faucet with a new Delta Palo and tested by filling both sides of the sink and draining. ---I ran my toilet auger through the toilet in the master bathroom multiple times with seemingly no obstruction but the bowl continues to fill quite high during the flush, I believe this toilet just has a very weak flush.

TECHNICIAN RECOMMENDATIONS:

I suggest replacing the toilet with new, there is a countertop above the toilet tank which will limit replacement options: (29-1/2" clearance under countertop, 11-1/2" rough in)

| QTY. | CODE | DESCRIPTION | UNIT PRICE | PRICE |
