REASON FOR TODAY'S CALL:

"The chain attached to the flapper broke off from the flush valve. I am unable to re-attach it because the rubber ripped on the flush valve. Also, it seems like water is leaking slowly so the fill valve pumps water every 5-10 min to maintain the water level."

DESCRIPTION OF WORK PERFORMED:

Replaced toilet flapper with new 3" Blue Toto. The nut for the lever handle was missing, I used a nut from a standard lever handle but it doesn't quite fit. I suggested calling Toto to have them send a new one out.
