REASON FOR TODAY'S CALL:
 Faucet in the sink is leaking from the faucet & a bit under the sink

DESCRIPTION OF WORK PERFORMED:
 I removed the lavatory faucet cartridge and found that it has a small crack in it, the cartridge looked like a K35A(common single lever lav cartridge) but the stem was thinner and the handle would not fit. I suggested calling the company where it was purchased from and asking them for a replacement cartridge under warranty. If they do not have parts for the faucet Sustainable Solutions will have parts, but they will charge for them.
