REASON FOR TODAY'S CALL:
 -replace tub drain trim. -install customer supplied shower cartridge.

DESCRIPTION OF WORK PERFORMED:
 ---Replaced tub drain trim in master bathroom. ---The guest shower has very low pressure but it is caused by the shower head. When the head is removed the pressure is fine. I tried to clear the shower head of debris but it is internal to the head. I suggest buying a new shower head. ---I was asked to replace the cartridge in the shower valve. I tried for 25 minutes to remove the handle but it was so seized up it wouldn't budge. I ended up having to use my drill to drill it out. I replaced the cartridge and tested but the handle is now unusable. I replacement will have to be ordered from Danze.

TECHNICIAN RECOMMENDATIONS:
 I did not charge for the cartridge replacement.
