REASON FOR TODAY'S CALL:

Guest toilet: -water not refilling in the tank. -after some flushes toilet continually runs.

DESCRIPTION OF WORK PERFORMED:

When I arrived the toilet tank was filling after each flush and it did not run after any test flushes but I removed the FlushValve and cleaned it with warm soapy water anyway for good measure. Tested by flushing the toilet multiple times in both flush settings(6L & 3L).

TECHNICIAN RECOMMENDATIONS:

I've asked Todd to keep an eye on it and call me if he notices any other issues but as of now the toilet is flushing fine.
