REASON FOR TODAY'S CALL:

1) Tap that supplies hot water to dishwasher can not be shut off physically and could be a safety issue if something happens and water starts pouring. 2) Water inside the sink drains very slowly. This is also not our area of expertise, but plumber would be able to help.

DESCRIPTION OF WORK PERFORMED:

-The shut off valve supplying water to the dishwasher was a little stiff but after opening and closing it a couple times it is now easily turned on or off. The other 2 valves under the sink are also in good working order. -I ran our PowerSpin drain snake down the kitchen sink drain and tested by filling both sides of the sink and draining. -I tried to help with the light above the ensuite tub but even after installing a new bulb(customer supplied) it would not turn on.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Clean drain using PowerSpin / Kitchen sink	\$149.00	\$149.00
