REASON FOR TODAY'S CALL: garburator jammed, sink not draining.

DESCRIPTION OF WORK PERFORMED:

I unjammed the garburator but did not notice anything out of the ordinary in the grinding chamber. Tested by filling and draining the sink while running the garburator.

TECHNICIAN RECOMMENDATIONS:

The garburator is a 1/3hp and not meant to handle a lot of food debris. I showed Mark how to free up the grinding chamber if it locks up again.
