**REASON FOR TODAY'S CALL:**

After the last time the toilet was flushed, the toilet sounds like the tank is being re-filled and there is the sound of trickling water. This occurs every about every two minutes now. Tried flushing the toilet to see if the problem would right itself, but it didn't. Have turned the water off and the tank has emptied within 5 minutes.

**DESCRIPTION OF WORK PERFORMED:**

I replaced the flushvalve gasket, marked the waterline on the inside of the tank, and gave it 10 minutes. The water level in the tank stayed where it should.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Replace FlushVLve Gasket - Kohler	\$119.00	\$119.00
