REASON FOR TODAY'S CALL:

Toilet plugged and then the tub backed up. Used a whole bottle of Drano but it didn't work.

DESCRIPTION OF WORK PERFORMED:

I tried to clear the blockage using the 6' toilet auger but could not. I then ran the PowerSpin drain snake through the tub drain and removed a large amount of what appeared to be floss, but the drain was still plugged. I then ran the snake down the lavatory drain and the blockage cleared. I ran the snake through the tub drain a few more times while running water but hit no obstruction and nothing was pulled out on the tip of the snake. Tested by filling and draining the sink and tub while flushing large rolled up balls of toilet paper down the toilet.
